Hi Dave – here are what I hope to get done this year.

TMDLs approvals – I hope to complete/assist TMDL approvals for the Clarks Creek DO and sediment TMDL in Washington and the Coquille TMDL in Oregon.

Oregon CZARA – I hope that we complete the Oregon CZARA action and set up a schedule to work closely with the state through FY15.

TMDL litigation – I expect to resolve the TMDL litigation either through settlement or briefing.

Oregon TMDL Program Coordinator – I'd like to prioritize the actions we want to work on with the State to develop their TMDL program.

- *Working with the State – Midcoast TMDL, Deschutes TMDL, 303(d) vision, modeling follow-up

- *Working with other EPA Coordinators – NPDES and WQS

- *Working with others in our unit – Mentor new TMDL reviewers

Subject: request for goals

Could each of you please send me a list of 3-5 accomplishments you are hoping to achieve this fiscal year? I realize with our PARS discussion there was not time to discuss the upcoming year and I would like to get a sense of the body of work you individually and we collectively hope to complete. Thanks.
